Three Two-Hour Seminars

Websites

Understand the value of different kinds of websites. Learn about website building applications. Explore effective and easy website management you can do yourself!

Blogging & Social Media

What is blogging? Why blog? Is it worth the trouble? Social Media - So many confusing options. Strategize for business growth and leverage the best in each.

Making Money on the Web

You need a plan! We will cover: Branding, planning, Funnels, Automation, Email marketing, Videos, Webinars, Budgeting. Understand how to use all aspects of the internet to build a successful business. No overwhelm no time sinks.

Hate Technology but know you need it? Confused & Overwhelmed?

Artists, crafts people, musicians and healers are all people that love what they do an often resist the mechanical and digital aspects of business. In fact, they often resist business altogether.

Quick Video Productions and Kathryn Alexander are offering this series of seminars to help reduce the confusion and feelings of overwhelm that often accompany even *thinking* of putting up a website or refreshing the old one.

The goal is to get you on line is a way that is easy to design, easy to manage, and easy to maintain.

You can take one, two or all three. Each one stands on its own, but they are designed to work together to give you a complete picture of what the internet can offer, why it is important to you and how to make sense of all the different options and possibilities.
